

# NORTHERN TERRITORY IRON ORE PTY LTD

ABN 59 609 206 706

## Project Update No. 2

The Roper Valley Iron Ore Project (the Project) is being developed by Northern Territory Iron Ore Pty Ltd (NTIO).

Located in the Roper Gulf Region of the Northern Territory, the Project involves the mining, processing and export of saleable iron ore through the use of upgraded public roads to the mouth of the Roper River and a newly established Barge Loading Facility (BLF) about 14km upstream from the mouth of the river. Ore would be barged 40km offshore to a Transshipment Mooring Point in the Gulf of Carpentaria.

**Roper Valley Iron Ore Project location.**

During the second half of 2018 and into early 2019, NTIO engaged Circle Advisory to carry out consultations with community and other stakeholders.

These included community groups and organisations in the Roper Gulf Region, Katherine and Darwin, the Northern Territory and Commonwealth Government agency organisations, landowners, business owners, industry and community organisations and individuals across the Region and the Top End, who have given freely of their time to participate in the consultations and follow up requests for information.

NTIO thanks you very much for your assistance in the development of the ESIA.

At the same time, we are continuing our design work for the Project and expect to be concluding the draft Environmental Impact Statement (EIS) for submission to the NT EPA in the first half of this year.

We will keep all stakeholders informed as we move forward with the Project and we remain committed to being frank and open in all our communications about the Project.

We are committed to developing strong relationships with traditional owners and other people in the communities in which we work, recognising that we share the responsibility for developing resources in a way that balances economic, ecological and societal needs.

Our community and stakeholder consultations have begun and will continue on a regular basis throughout the Project.

**Project Information and Contacts:**

As the project is developed, NTIO will provide further Project Updates to all stakeholders via our website: [www.ntio.com.au](http://www.ntio.com.au).

The Notice of Intent and other relevant information about the Project is available on the NT EPA's website: [Roper-valley-iron-ore-project NTEPA](#).

The Project contact for community and stakeholder consultation is [admin@ntio.com.au](mailto:admin@ntio.com.au).
